Although there is a lag in this district compared with previous experience Canada as a whole is responding with \$695 million subscribed after 8 days. The province of Alberta is approaching 50% of its total objective of 40 million after eight days of canvassing. Lethbridge has 108% of its quota, Red Deer 67%, Calgary 53% and so on. Every mining district in Alberta is in the top 15 on per capita basis. Units which have gone over the top include Pincher Creek, Magrath, Standard, Lethbridge, Rockyford and Luscar.

The number of men and women who served you in war and who will draw gratuities are 900,000. The average gratuity amounts to \$500.00. Give them a chance when they return from serving you. Buy a 9th Victory Bond Now!

Ninth Victory Loan. They know that the welfare of their industry depends on export trade. They know that 70% of the entire provincial incomes depends entirely on export. And they find that the Dominion Government is planning, through the current loan to extend \$900,000,000 in export credits. This is to restore allied countries which are future customers but must first be put on their feet. Alberta's share of these credits is expected to realize 150 million. All the people of Canada contribute to the Loan, and farmers and ranchers will benefit specifically because they have the wheat, the pork and the beef needed for export.

It is realized also that lands and property have increased in value during war years, and that, while other nations have been depleted and robbed by war, Canada has prospered materially. There is wealth in the country, but if this wealth were turned into a buying spree at the present juncture, the dread curse of inflation would be the result.

So purchase of Victory Bonds serves a manifold purpose. It is an honorable fulfillment of obligations to returned men in their restoration to active civilian life, and it is a prime safeguard against an avalanche of spending. All society can co-operate in postponing purchases until things become plentiful again, thus keeping down the prices of what we want and need. Put money in Victory bonds.

Everyone recalls the endless promises made that those at home would make a better world for service men to return to. Those promises were freely given in the dark hours of Dunkirk, after Dieppe and in gratitude for the valorous invasion of Europe. Everyone has his responsibility in living up to those promises. The money raised by means of the Ninth Victory Loan brings the armed forces home pays their gratuities, restores them if need be to health, cares for those who need hospitalization, trains them for new jobs, estab-

MUNICIPAL CONVENTION HELD IN VULCAN

The Eleventh Annual Convention of the Foothills-Little Bow Municipal District Association was held in the Oddfellows' Hall, Vulcan, on Friday, October 26th, with 25 councillors from Barons, Vulcan, Blackie and Staveland present. Sam Fox, M.D., of Blackie councillor, was in the chair. Discussions on municipal matters occupied the greater part of the very profitable and interesting meeting.

J. M. Whitley, of Chancellor, Alberta, President of the Alberta Association of Municipal Districts, was present and told delegates of the activities of the association, and urged large attendance at the Provincial Convention to be held in Calgary on November 20th, 21st and 22nd.

J. W. Judge, Director of Assessments in the Department of Municipal Affairs, attended and discussed the matter of general assessment being made. Through his attendance many problems were straightened out.

S. Lea, Inspector of the Department of Municipal Affairs, spoke to the convention on budgets, etc. Rev. Peter Dawson, M.L.A., also attended the meeting and gave an interesting address on the problems of councillors. A banquet was held in the basement of the Oddfellows' hall at 6.00 p.m., this event proving the highlight of the Convention.

The following officers were elected for the ensuing term: President, Sam Fox, of Blackie; Vice-President, M. Molchow, Staveland; and Secretary-Treasurer, D. D. McQueen, of Vulcan.

Canada's men and women must be returned home. The cost of returning a soldier home, including maintenance, allowances and gratuities is \$1750.00. Canada needs your money in the 9th Victory Loan to bring back your boys and girls from the battlefields.

lishes them on farms or in business and generally launches them once more in civilian life. The speed with which this can be done depends in large measure on public financial support. Young Canadians did not fail their country in time of war. Let it not be said their country failed them in time of peace. The quicker they are established the sooner the return to normalcy.

Another angle which the thrifty man does not overlook is the current Dominion of Canada bond prices. The first war loan bonds at 34% are bringing 105%. The fourth Victory loan bonds at 3% are bringing 102; and so on through the successive loans. And don't forget the deferred payment plan. Pay 5% when ordering the bonds and the balance at any time during the next months. The interest the bonds earn pays the interest on the bank loan.

500,000 Millions of dollars of the 9th Victory Loan are for the establishment of credits to devastated countries. Alberta, as an exporting country (70% of our goods exported) has a sound reason to support this loan. To retain our overseas markets, we must invest in the 9th Victory Loan.

LETTER FROM TOMMY BROOKS TO LADIES' AUX.

Dear Friends:-

Here I am again to say hello and to thank you for the lovely parcel you sent me on July 7th. It was really a dandy one and I certainly appreciated it. I also wish to thank you for two lots of cigarettes I received lately. They really help out a lot.

I had hoped by this time I would be on the road home, but no luck so far. By the looks of things now, it will be spring before I get back to Canada again.

I'm on a pretty big job over here just now. There is a small detachment of us controlling a supply depot for UNRRA. There are 42 Germans working at the depot for us and it is our job to see that they issue and store the supplies correctly.

We are feeding sixteen camps of 14,000 Polish displaced personnel and one camp of German internees. Our transports consist of ten, 10-ton trucks which haul out 75 tons of food a day to the camps.

UNRRA has four such depots as the one at Leer in N.W. Germany, so you can see there is a big job to do here yet.

The food situation for the German people is going to be very bad this winter and we expect that there might be trouble with them later on. A hungry man can get pretty desperate when there is food in sight. I hope we have no trouble with them.

Well, how is everything around little old Vulcan this fall? Suppose all the fall work is finished and you are ready for another one? I hear you had a little dirty weather for harvesting. That's not so good, is it?

It is interesting to drive on the highways in Germany and see the hundreds of people, old and young, coming and going. Some are walking, some have bicycles, and some have a horse and cart. They are all loaded down with a big pack on their backs or are carrying a suitcase, sometimes both.

Some of them are out from the cities in search of food from the farmers and others are returning home from the Rhineland and the Russian zone.

Well, such is life in Germany, friends, and I am getting used to it and hard-hearted towards it now. I will be damned glad to get back to a good country again.

Say hello to mother for me if she is there. I guess I will say bye bye this time hoping to see you all some time in the future. Sincerely-Tommy Brooks.

Try and recall any service farmers have to purchase, the charges for which were lowered during the war years and prior thereto. Can you think of more than one?

Yet grain handling charges in country elevators were reduced to the lowest point in history during the war years.

The reason therefore was the fact that the Wheat Pools, the farmers' own organizations, are in business.

Farewell Party for Tester Family; Queenstown Legion Dance Will Milo Flyers Take to Manure Spreading by Airplane?

Pte. Larry Hagg who has been stationed at Edmonton spent a few days visiting with friends and relatives in the Queenstown and Majorville districts.

Miss Eileen Hagg who has been training in the General Hospital at Calgary, is at home with her mother in Majorville, recuperating from a throat operation.

Mr. Mackenzie Lawther of Winnipeg has been a guest at the home of Mr. and Mrs. A. Lawther.

Miss Valerie Taggart and Miss Roberta Brown spent a week-end at their respective homes at Queenstown. Both are employed at High River.

John Stumpf, Harvey Gilliland and Orland Brinker have accepted employment with the McGregor Telephone and Power Construction Co.

Mrs. Dewey and son Alan have arrived from Codette, Sask., and are now residing in the residence formerly occupied by Mr. and Mrs. G. Williams.

Mr. and Mrs. Gil Williams have left for Toronto where Mr. Williams takes over the position of manager of the Pape and Danforth Branch of the Bank of Nova Scotia.

Word has been received by Mr. and Mrs. Thomas Webber that their son Lac T. B. Webber has been posted to Air Command headquarters at Winnipeg.

Over seventy-five ladies and young ladies were present at a shower held at the home of Mrs. P. Soli on Wednesday, honoring Mrs. Robert Gooch, nee Doris Brown. Mrs. Derrick made the presentation to the bride, who was the recipient on many lovely and useful gifts. Miss Myrtle Godkin and Miss Dene McMorris assisted the bride in unwrapping the gifts and the bride in well chosen words expressed her appreciation. A very delicious lunch was served.

Russell Mills who is wintering in Calgary has taken up flying and is training with the Chinook Flying service and may land here with a plane in the spring. I suppose that after a while this will be commonplace but Russell is the first from our district to venture this new way of transportation. Jack Bushell is also training and has many flying hours to his credit. What a wonderful and horrid world this is going to be when the farmers take up flying. Time was when the hired man could let the team rest behind a friendly knoll and have an afternoon nap but that will be a thing of the past. Grass seed and grasshopper poison will be scattered from the air and we suppose that manure will be spread the same way. Pedestrians have long had occasion to dread the pigeons and sparrows but turn a farmer loose with a flying manure spreader and ve gods. Soon, too, freight will be hauled by air and the elevator man will simply open the top of the elevator and a thousand bushels of wheat will land in his lap. The population will change as it will be just an hour's hop for the city slicker to call each night on the milkmaid and the women of the house will spend the day in the city, pick up some fish and chips and have them on the table at six o'clock. In some way undreamed of now, we will get on a more intimate footing with the stork and first thing we know we'll all have wings and use them in this world or the next and everything will be perfect.

Our congratulations to David Brown of Queenstown who this week celebrated his seventy-third birthday. Dave has truly earned the title of Oldtimer as far as settlement in this part of the West is concerned. He was born in 1872 in Kildare, Scotland, and came West in 1889, a colonist under the scheme established by Capt. Dawson. Later the Colonization Company suffered bankruptcy and was taken over by the Conrad Bros. of Montana, owners of the famous Circle Brand. Fifty-six years have passed since David came to this country and fifty-five of them have been spent beneath the same roof. David is a youthful figure of a man, as straight as a ramrod and as keen as that of a youth. The present holdings are known as the Arthbutthott Ranch and two sisters, Miss Susan and Mrs. Wilson still live at the old homestead. May all of these oldtimers be with us for many long and useful years.

A fine farewell party was held at the Oddfellows' hall in honor of Mr. and Mrs. F. W. Tester who are leaving the district following six years' sojourn here and taking up residence at Innisfail. The farewell was in the form of an evening spent in dancing. One novelty dance that nearly brought the

house down was a waltz for men only. Few women could have survived the loving embraces and strangleholds that those chap inflicted on each other. Lewis Ivers and his partner Lawrence Phillips starred as contortionists and five-foot five Evan Beechman got tired of being mauled by two-hundred and twenty-five pound Ben Dann and finally chose the lesser of two evils and carried him off the floor. The ladies served a nice lunch and a presentation on behalf of the community was made by Alfred Heather. Mr. and Mrs. Tester both made suitable replies, dwelling upon the friendliness of the district and extending invitations to one and all to visit them in their new home. A fine feature of the event was the return of Ernest Heather from three-and-a-half years' of service overseas.

The Queenstown branch of the Canadian Legion wish to have attention drawn to the dance to be held on Friday the second of November at the Milo I.O.O.F. hall. They would appreciate the wholehearted support of the public in this their first venture since obtaining their charter and are looking forward to a large attendance. Don't forget that the Legion was instrumental in helping the boys of World War 1 and are prepared to do the same for your boys returning now.

The Queenstown community were shocked at the sudden passing of Mrs. Phoebe Watt at the age of 77. She had been making her home for some time past with her daughter and son-in-law Mr. and Mrs. M. T. Edwards. Mrs. Edwards was attending a bazaar at Queenstown at the time of demise and only a few minutes before had remarked on how well she was feeling. Previous to residing at Queenstown she was a resident of Vulcan. Funeral services were held at Lethbridge with interment following.

Milo lost an early resident of the district with the passing of J. P. Morseth aged 74. Mr. Morseth had been in ill-health for some time. Funeral services were in charge of the Jones' Funeral Home and interment was made at the Norwegian-Lutheran cemetery with Rev. Morstad of Calgary officiating. Mr. Morseth came to this district from North Dakota in 1908 and has resided here since. He leaves to mourn his loss, his wife and four sons and four daughters, Leonard and Alvin at home, Rose King of Vancouver, Clara Rankin of Edmonton, Pauline Robertson and Jul Godkin of this district.

The Queenstown Ladies' Aid held a most successful tea and bazaar on Saturday. A number of ladies from Milo and Shouldice were in attendance and enjoyed a delicious lunch consisting of chicken salad, buns, coffee and cake.

Autumn Wedding

An autumn wedding was solemnized by Rev. C. A. Lawson in the Central United Church at Calgary on October 14 when Miss Doris Brown, youngest daughter of Pte. and Mrs. Stanley Brown of Queenstown, and Mr. Robert Gooch third son of Mr. and Mrs. P. Gooch of Queenstown, were united in marriage. The bride entered the church on the arm of her father wearing an afternoon frock of Jersey silk, and carried a shower bouquet of red roses. Roberta Brown sister of the bride was bridesmaid and also wore a two-piece Jersey frock and carried a mixed bouquet of red and pink carnation. Mr. William Gooch, brother of the groom acted as best man. A reception for the thirty guests was held at the banquet room of the Empress hotel. Mr. Leslie Long, uncle of the bride, proposed the toast to the bride. The couple will reside at High River.

Wedding Bells

Braunworth-Fritz

A quiet wedding took place on October 6, 1945, when Minnie, younger daughter of Mr. David Fritz and the late Mrs. Fritz of Medicine Hat, was united in marriage to Cpl. Victor Braunworth, of Brant. The ceremony was performed by Rev. S. H. Irving in Fifth Avenue United Church.

The bride, given in marriage by Mr. Alex Ott, was gown in floor length white satin with finger-tip veil and carried an arm bouquet of red roses. Miss Eileen Schneider as bridesmaid, wore a blue net gown floor length, and carried pink roses. Lac Ted Braunworth, R.C.A. F., attended the gown.

A reception to immediate friends and relatives followed at the home of Mr. and Mrs. Alex Ott.

Out of town guests included John Fritz, brother of the bride from Richmond, Sask., and Leading Wren Dawn Bayford, sister of the groom.

The happy couple left for points north. For travelling the bride chose a suit of coral bunny wool with brown accessories. The groom is stationed at the Internment Camp and they will make their home in the city.

Bateman — Johns

At a twilight ceremony which took place before an altar banked with cedar boughs and bouquets of yellow gladioli and chrysanthemums in Central United Church, Tuesday evening, Oct. 16, Mary Helen Johns, exchanged marriage vows with Henry Bateman, Rev. C. A. Lawson officiated at the service.

The bride is the daughter of Mr. and Mrs. Thomas Johns of Brant, Alta., and the groom's parents are Mr. and Mrs. George Bateman also of Brant.

Father Gives Bride

Mr. Johns gave his daughter in marriage, and she wore a floor-length gown of white sheer which featured a quilted waistline outlined with embroidery of fine gold thread. Her scalloped veil was full length and fell in graceful folds from a Mary Queen of Scots head-dress, and she carried a cascade bouquet of red roses.

Miss Ruth Scott of Calgary was bridesmaid, frocked in a floor-length model of pink sheer complemented with chapel veil of matching pink net which was caught in place with clusters of flowers. Her bouquet was of pink carnations.

F/L. Bill Christofferson was groomsmen, and the guests were ushered by Sgt. Ralph Ford and Glenn Bateman. Mrs. Phyllis Chapman Clarke presided at the organ throughout the service.

Following the ceremony a reception was held in the east room of the Palliser hotel, where Mrs. Johns, mother of the bride, and Mrs. Bateman the groom's mother,

received with the bridal party. The former chose a black ensemble with accessories in tone and Tallman roses en corsage, while Mrs. Bateman was attired in a wine frock with contrasting green accessories and a shoulder bouquet of cream roses.

A three-tiered wedding cake flanked by tall standards of pastel gladioli centred the bride's table, which was lighted with tall ivory tapers. S/Sgt. M. Friend proposed the toast to the bride to which the groom responded.

Mr. and Mrs. Bateman left later by car for a wedding trip to Seattle, visiting Banff, Vancouver and Esquimalt en route.

As her travelling ensemble the bride changed to a lime green wool suit complemented with black accessories and a corsage of pink carnations and she carried the groom's gift of a muskrat fur coat.

Offer Canada As Jewish Refuge

Recently 400 Calgarians gathered to protest restriction of Jewish immigration into Palestine.

J. S. Mavor, K.C., one of the speakers said Canada should set an example by offering refuge to Jews and by telling the millions of homeless Jews in Europe that they have a haven in Canada if they cannot obtain their homeland in Palestine. But Mr. Mavor also admitted that such an offer, if made authoritatively would create an uproar. He said the Jewish people in Canada had given us our great-

est artists, scientists and intellectuals that they were an industries and self-supporting people. He thought Canada should be ready to protect with force the Jews in their effort to obtain the return of their country and should side with the Jews against the "snivelling, decrepit, dominating Arabs."

The resolution of the meeting protested the white paper policy of the British with regard to the Holy Land, and said: "We call upon the British government to open the gates of the Jewish homeland to all the thousands of Jews who were miraculously saved from Nazi extermination and to all those who wish to fulfil wholly and completely its pledge to the people who wish to fulfil wholly and completely its victims of injustice and inhumanity."

Included in the meeting of protest were the secretary of the Calgary Zionist council, certain Protestant clergymen, barristers, etc. It was suggested that 100,000 to 500,000 Jews be offered the haven of Canada.

What do you think about all this?

The Liberal Government of Nova Scotia was returned to power on Oct. 24 with Angus McDonald as Premier. It is said to be the most sensational victory in Nova Scotia history. The standing at present is Liberals 28, C.C.F. 2.

One of the best public auction prices for a female beef animal recorded in the West was paid to W. A. Crawford-Frost, Nanton for one of his Hereford heifers at Calgary Fall Sale last week.

THE WARTIME PRICES AND TRADE BOARD

FARMERS' BULLETIN

FARM MACHINERY OFF RATION LIST

All rationing controls have been removed from sales of farm machinery, and restrictions on the production or importation of such machinery have been lifted.

Price controls remain. Generally, maximum price for farm implements is the price at which such items sold during the basic period, August 15—September 11, 1941. Quoted prices do not include cost of delivery to the purchaser.

Under Consumers' Credit Order No. 225, section 10, terms of sale for farm machinery are: 1/3 of quoted price paid in cash; the balance of the credit price to be paid within two years of the date of the contract in stated amounts at specified dates. Any allowance for a trade-in is to be deducted from the unpaid balance.

Despite the lifting of production restrictions, it is expected that the shortage of components such as malleable castings and sheet steel will limit the maximum output of farm implements during the year July 1, 1945, to June 30, 1946, to a 24% increase (on tonnage basis) over the output in the preceding 12 months.

Farmers' Poultry Prices

Farmers selling all types of poultry, except turkeys, direct to consumers are permitted a 25% markup over the wholesale ceiling prices established for the zone in which they are located. Turkey producers are allowed a 20% markup over the wholesale level.

Potato Storage Allowance

(Order A-1560 now in effect)

A storage allowance of 5c per 75-lb. bag of potatoes and 7c per 100-lb. bag is allowed on November 1. Another 5c per 75-lb. bag and 6c per 100-lb. bag may be added on December 1; and another 5c per 75-lb. bag and 7c per 100-lb. bag on January 1, 1946. There will be no storage adjustment for February but monthly increases will be resumed on March 1.

FARMERS' RATION COUPONS

Coupons covering farmer sales or farm household consumption of meat and butter, and sales of preserves must be forwarded to Local Ration Boards in primary producers' envelopes (RB-61). Reports for November should reach the Local Ration Boards not later than December 10.

Following are the valid coupon dates for November:

	MEAT	BUTTER	SUGAR	PRESERVES
November 1.....	M 9	128	..	..
" 8.....	M 10	..	..	..
" 15.....	M 11	129	66, 67	P 20, 21
" 22.....	M 12	130	..	..
" 29.....	M 13	131	..	..

Farmers are required to send in "M" coupons to the Local Ration Board for meat they consume, and meat they sell to farmer neighbours at the rate of 4 lbs. per coupon. Farmers who slaughter meat need not turn in at the end of the month more than half the valid meat coupons in the ration books of their household. Farmers who purchase meat from other farmers must surrender to the selling farmer one meat coupon for every 4 lbs. of meat purchased, even if this means surrendering coupons not yet valid.

FARM SLAUGHTERERS

Farmers who slaughter for their own household consumption or for the consumption of their farmer neighbours, are not required to hold a slaughter permit. Any excess of farm slaughtered meat over the farmer's or his neighbour's needs may be sold only to the holder of a regular slaughter permit in quantities not less than a quarter of Beef or a side of Pork. Sheep, lamb or calves slaughtered by the farmer for his own or his neighbour's use may not be sold into the meat trade.

Licensed slaughterer's quotas for cattle have been temporarily suspended and until further notice a licensed slaughterer may slaughter all the cattle needed for his requirements.

Rationing is your assurance of a fair share. is a protection against waste... shortages... inflation. That is why farmers are asked to continue to collect and turn in coupons to their Local Ration Boards—once a month—in the RB-61 envelope.

This was a "Sign" of Defeat

Greatest moment in the career of one of Britain's greatest soldiers, Field Marshal Montgomery watches General Kessel sign the surrender that handed over more than a million German soldiers, sailors and airmen to the British and Canadian armies.

Sign your name for Victory

To Canada's gallant fighting forces a great portion of the credit is due for Victory over the Nazis, climaxed by the signing of Allied terms for unconditional surrender. While we at home put forth our united efforts to supply material help towards achieving this result, the debt to our Sailors, Soldiers and Airmen still remains. Nor will the slate be wiped clean until every man and woman who returns is happily re-instated in a Canada at peace, offering better opportunities and more attractive prospects for the future than ever before.

Now that the world at large is again at peace, we must fearlessly tackle the tasks that lie ahead. Let us keep unnecessary spending down by keeping the volume of Victory Bond Sales up! Let us, in a true spirit of gratitude, unite in a combined effort to make sure that our boys and girls who offered their all for Canada and the cause of freedom, may come into their heritage. Every Bond each one of us buys is a token of our whole-hearted sympathy in the common cause.

MILO

Death of Pioneer

A fine old pioneer of the district passed away recently in the person of Phillip Stumpf at the grand old age of 84. Mr. Stumpf was a genial, affable character taking a keen interest in the community and its affairs. He had enjoyed good health throughout life and suffered only a few hours pain e'er he succumbed, a victim of acute indigestion. He came to the district and took up a homestead forty years ago but for the past nine years has lived at Milo. His wife predeceased

him in 1938 and six children survive. Carl at Washington, S.D.; Joe at Sacramento, Calif.; Albert of Milo; Phillip of Pendleton, Ore., and Mrs. Violet Peterson of Milo. The funeral was held at the Oddfellows hall at Milo with interment taking place at the old Marquis cemetery. Rev. Sharp conducted the funeral service and the Jones' Funeral Home of High River was in charge of arrangements. The attendance at the funeral and the many floral tributes spoke fittingly of the esteem in which the deceased was held.

The C.N. Railways will probably show a surplus of \$25,000,000 for 1945, or \$2,000,000 more than in 1944.

The chairman of the South Alberta War Finance Committee by way of clearing up the words "deposit with adjustments" assures the following: "Any payments plus interest at 3% less a nominal service charge will be returned to him. Should the bonds go up in the meantime the premium will also be paid to him."

The reduction in British income tax means that small wage earners may not have to pay tax next year. A single man earning \$585 a year pays \$4.70 tax. A married man with three children has up to \$1800 tax free.

VICTORY BOND INVESTMENT COMES BACK TO ALBERTA

Farmers and ranchers will be interested to learn that every dollar which they invest in Victory Bonds in the 9th Victory Loan will be returned to them a hundred-fold under the Dominion Government's \$900,000,000 export credit plan.

The Dominion Government intends to appropriate this amount for exports credit or for the financing of the marketing of export products. Alberta's share of these credits is expected to be anywhere from \$100,000,000 to \$150,000,000.

Purpose of the appropriation is to supply food, clothing, etc., to the United Kingdom and to the allied devastated countries.

It is generally recognized that Canada, and especially Alberta, cannot live without export trade. Seventy percent of our provincial income is entirely dependent on ex-

port trade.

The situation therefore boils itself down to this. All the people of Canada will contribute their share of the money required for credits and farmers and ranchers will benefit the most because they have the wheat and the pork and the beef to sell. Is there any better reason why farmers and ranchers should buy Victory Bonds to the limit of their capacity.

Today the cities are showing the lead to the rural districts.

Let's reverse the position and let the rural areas lead the cities. Buy Victory Bonds and sign your name for Victory.

Who Benefits Most From Victory Bonds?

Vulcan, Champion, Carmangay and Barons people who have bought Victory Bonds, to help Canada's war effort, have learned the value of saving money.

We have learned that we can save.

We have learned how to save.

WE HAVE OUR BONDS. Dividends, twice a year, remind us that we are better off because we have invested in Victory Bonds. Now, we are asked to buy Victory Bonds again.

Yes, the war has ended... but a lot of war costs remain to be paid. Canada still needs all the money that every Canadian can save and lend.

Starving allies look to Canada for food. Devastated countries need so many things that we can supply. Canada must extend credits to these countries to help put them back on their feet... to enable them to purchase from us the things they need... food from Canadian farms... products of

Canadian factories. In this way the Victory Bonds we buy will help to ensure a higher level of employment by providing markets for Canadian goods.

Men and women who have served in the Navy, Army and Air Force must be re-established in civil life. This is a big job and it will cost money to do, but it must be done and done well. Victory Bonds will help to pay the cost.

And... by putting off buying everything we can do without... and using our savings to buy more Victory Bonds... we will help to keep down prices of things we have to buy... we will help to prevent inflation. This, too, is important!

It is announced that there will be only one Victory Loan in the next 12 months. So all of us are expected to buy double this time. The same rate of saving as in previous loans will pay for twice as many bonds over the 12-month period.

All attending gained much useful information, and among other business it was decided that the next zone meeting will be held in Vulcan sometime in March. Incidentally, the article about the meeting in one of the Calgary papers on Monday managed to mix the facts up quite thoroughly. We are looking forward to what Merv will have to say about the report he is purported to have made. We kind of hope his explanation will be in keeping with his report as it appeared in print.

Total of donations and carnival proceeds to date is nearly \$9,500. This means that only \$2,500 more is needed, and the committee are quite hopeful that this amount will be contributed in the near future. We would like to carry the complete amount in our next list of donations. There is no longer any doubt that the project will have a green light as far as finances are concerned.

American Plan Army Training

President Truman has recommended a year's military training for young men between 17 years and 20 years. His idea is a small professional army supplemented with a reserve of trained young men.

Speaking in terms of the atomic bomb he said that force of that nature required protection to overcome attack, and to direct the bomb against the enemy's own territory.

His idea was that young men should be given training either on graduation from high school or round the age of 18 years. He would include all young men in the training even though they were not fit for actual combat and would allow no exemptions, except total physical disability. He said that this period of basic training in time of need might mean the margin of difference between survival or complete destruction.

A continuing military set-up would include a small regular army, navy and marine corps; a greatly strengthened National Guard, and a general reserve of all male citizens who have had training.

DISCHARGED PERSONNEL MAY RETURN TO OLD JOBS

The Reinstatement in Civil Employment Act, passed by Parliament in 1942, sets forth conditions under which employers MUST REINSTATE their former employees in their employment after discharge.

This Act and its Regulations are administered by the Dominion Minister of Labour, through the National Employment Service. Reinstatement Officers are available in the National Employment Offices to answer inquiries, and assist in adjusting cases.

Employees—either men or women—are to be reinstated if:

- they worked for their employer 3 months immediately prior to enlistment, and were not replacing another employee who has since been reinstated;
- they left their employment to join the Armed Services, the Merchant Marine, or the Fire Fighters Corps;
- they apply to their employer for reinstatement, verbally or in writing, within 3 months following discharge in Canada or 4 months if discharged Overseas.

Provision may be made for extension of time if the employee's health prevents him or her from returning within the specified three months. In this event, the employer must be advised within the 3 or 4 months, as the case may be.

The following points in the legislation are also important:

- Discharged men and women upon reinstatement are to be given conditions not less favourable than would have been enjoyed had they continued in employment instead of joining the Forces.
- The period of time spent with the Armed Services is to count for seniority rights, pension rights, vacations with pay, and certain other benefits.
- Discharged personnel who cannot perform their former duties are to be reinstated in the most suitable employment available, at which they are capable of working.
- If an employer dismisses a reinstated employee within 6 months, he must be able to prove in court that he had reasonable cause for so doing.

ALL EX-SERVICE MEN AND WOMEN ARE URGED TO USE THE FACILITIES OF THE NATIONAL EMPLOYMENT SERVICE WHEN LOOKING FOR WORK.
